You name it, we catch it is certainly something Eddie has and will continue to do. He is known for catching giant tuna, trophy stripers, sharks, slammer blues, and various ground fish. He's quite active on the speaking circuit with business groups, social clubs and one-on-one conversations regarding the fishing industry. When he was 16 years old, he competed against 1000 anglers and won first place-a fishing legacy that continues on to this day!
