

School Bluefin Tuna

This is a great introduction to big game fishing techniques. We have the boat, proven experience and custom Penn International Reels and Rods to help make your experience a successful one. Our travel will take us 18-50 miles offshore and employ unique high speed trolling patterns to attract these school bluefin tuna. These fish will range from 35-100 lbs. Ocaasionally during the season we sometimes hook up on a giant bluefin as well. Many times during this last season, we had multiple hook-ups that made for plenty of excitement
